

Berchet, Caroline

Organisation for Economic Co-operation and Development

Caroline Berchet (PhD) is a health economist at the OECD Health Division, working on a broad variety of topics related to both data and policy analysis. Her work on data focuses on health system performance assessment framework and how to improve the current health information system. On the policy side, Caroline manages the OECD work on primary care and cancer care, and has also been working on quality and health care policies, and on health system efficiency across OECD countries.
