Bogaert, Petronille
Sciensano, Belgium

She is head of the unit EU health information system at Sciensano where they are coordinating InfAct a Joint Action on Health Information. InfAct brings together 40 institutions in 28 European Countries and aims to set up a research infrastructure for health information to facilitate research and use of health information in Europe. InfAct builds on the BRIDGE Health project which she was previously coordinating. Meanwhile, she also worked on the Joint Action on Rare Cancers and the Joint Action on Cancer Control Innovative Partnership on Action against Cancer (iPAAC). In the past, she has worked at the European Commission in DG SANTE unit C2, the Ministry of Health in Paris and as a Junior Policy Advisor at Health Action International.
