

Neven, Inge

La Commission communautaire commune

Bio-ingénieur (applied Sciences) and MBA general management, obtained in 2000.

20 years+ work experience as a consultant and COO/CIO/CDO in several public and private companies, always looking for elements 'for a better live'. Have been working 4 years for an NGO in Africa 'building and connecting people's capacities', working for imec (high tech R&D company with many applications in the health care sector).

Since May 2020, working as crisis manager and responsible for the Covid in the Brussels region in Belgium for the Brussels Government. Head of the preventive medicine department at the administration of the Brussels government

Like to travel, to sport (run, bike, tourski), have a good glass of wine with friends

Never stop exploring is my baseline.
