

Jankowitsch, Olivier

Valneva

Olivier has over 20 years of experience in the Biotech and Pharmaceutical industry. In his current position at Valneva, a fully integrated vaccines company, Olivier is setting up global Governmental Affairs and oversees Grant Management. Before, he had overarching responsibility for the company's COVID-19 vaccine program from inception to full marketing authorization within two years. Among other previous roles, he led the Global Supply Operations function, and oversaw Corporate Development – mergers and acquisitions as well as subsequent integration. Olivier started his professional career at Baxter BioScience, where he held managerial positions in Process Validation. He is a Chemical Engineer by training, having graduated on Safety and Environmental Technology at the Swiss Federal Institute of Technology in Zurich. Additionally, he holds a Certificate in Financial Management from Cornell University, and a Post Graduate Diploma in EU Public Affairs & European Studies.
