

Puttati, Vania

EuroHealthNet

Vania is part of the Policy Platform and provides expertise and first hand information on EU processes and policies relevant for the public health sector, health equity and social determinants of health. He is responsible for the coordination of the annual analysis of the European Semester and Recovery Plans. Vania is also in charge of monitoring of and contributing to EU digital policies developments, including the participation to the EU eHealth Stakeholder Group. Moreover, Vania is project officer working on the Joint Action on Health Equity in Europe (JAHEE).

Prior to joining EuroHealthNet, Vania worked for a number of Brussels-based organisations, including a Blue Book traineeship at the European Commission (DG SANTE). Vania holds two MA degrees in Political Science and European Studies.
