

Castro, Rosa

Deutsche Stiftung Weltbevölkerung

Rosa is a Senior Advocacy Officer at the global development and advocacy organization Deutsche Stiftung Weltbevölkerung (DSW). She has over 15 years of combined experience in the non-profit and academic sectors, as well as consulting, including positions at the European Public Health Alliance (EPHA), the Federation of European Academies of Medicine (FEAM), and the Global Health Innovation Alliance Accelerator (GHIAA). Since 2024, she has been the (part-time) Director of the Biosciences and Public Health program of the European Academies Science Advisory Council (EASAC).

Earlier in her career, she was a postdoctoral fellow at the European University Institute and at Duke University, and a lecturer on intellectual property and health law at the University of Bologna and LUISS Guido Carli University in Rome. Rosa holds a law degree from the Catholic University Andrés Bello (Venezuela), a joint PhD in European Law and Economics from Bologna University (Italy) and Erasmus Rotterdam University (the Netherlands), and an MA in Bioethics and Science Policy from Duke University (USA). Her publications are available [here](#).
