

Sarpatwari, Ameet

Harvard Medical School, Brigham Women's Hospital, PORTAL, Harvard University

Ameet Sarpatwari is an Instructor in Medicine at Harvard Medical School, an Associate Epidemiologist at Brigham and Women's Hospital, and Assistant Director of the Program On Regulation, Therapeutics, And Law (PORTAL) within the Division of Pharmacoepidemiology and Pharmacoeconomics. His research draws upon his interdisciplinary training as an epidemiologist and lawyer and focuses on the effects of laws and regulations on therapeutic development, approval, use, and related public health outcomes. Dr. Sarpatwari studied epidemiology at the University of Cambridge, where his doctoral work centered on uncovering disease progression, treatment effectiveness, and co-morbid burden among adults patients with primary immune thrombocytopenia. He subsequently studied law at the University of Maryland as a John L. Thomas Leadership Scholar. He is currently the principal investigator on grants from the Open Society Foundation and the Anthem Public Policy Institute, and a co-investigator on grants from the Laura and John Arnold Foundation and the Harvard Program in Therapeutic Science. Dr. Sarpatwari also serves as a Faculty Affiliate with the Center for Bioethics at Harvard Medical School, the Department of Health Policy and Management at the Harvard T.H. Chan School of Public Health, the Petrie-Flom Center at Harvard Law School, and the Behavioral Insights Group at the Harvard Kennedy School.
